

Pesto

written by The Recipe Exchange | August 5, 2016

Ingredients

2 cups packed basil
1/2 cup Italian parsley
3 cloves garlic
1/2 cup pine nuts, toasted and cooled
1/2 cup grated Parmesan
1/2 teaspoon salt
pinch or two pepper
1/2 cup olive oil

Directions

Place all ingredients except oil in a food processor. Blitz two or three times to get it going, then turn on and let run while drizzling oil in. Stop when all the oil is incorporated but before it gets too thin. I like mine to still have a slightly chunky feel to it.
